What did you like most in today's session ?

4 responses

-

Everything was good

Good

Project implementation

What aspects of the training could be improved?

4 responses

hands on practise

Slower sessions

I felt the class should've focused on multiple mini projects rather than sticking to one big project with very few functionalities. It limits the learning.

After completing the project the instructor should explain the working of each file and show us how all the components are interlinked and the things happening behind the scene ,Like she should explain the working of the code for better understanding
